THE HATE,-People have for centuries been afflicted with bald heads, and the only remedy heretofare known has been those abominable wigs .-By a recent discovery of Professor Wood, these articles are being fast dispensed with; but a great many persons still patronice them because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is new covered completely with the tinjest and most beautiful curls imaginable. We know of numerous cases where harr was rapidly falling out, which it restored in greater perfection than it ever had been

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is

How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabized as their compaerors. In the words of a writer of some celebrity, "they have perished from the earth, their cities are gigantic piles of ruins, their Kings and Princes so mighty in their lives, are for-
